## Optimal solutions due to cooperation with partners

In supplying applications Fujitsu Technology Solutions closely cooperates with partners. Their tailor-made solutions fulfill optimally the IT needs of our customers and extend the product portfolio of Fujitsu Technology Solutions to a complete offer of industry-sector-specific products, solutions and services.

**Software partners** offer solutions whose strengths can be exploited to the full under BS2000/OSD.

**hardware partners** supplement the hardware offering of Fujitsu Technology Solutions with their own products.

**Service partners** carry out a whole range of services in the BS2000/OSD environment.
